Volume 29, Number 1, January-February, 1997

CHEMICAL FIBRE CHEMISTRY AND TECHNOLOGY

Prospects for Use of Microbial Raw Material for Fabrication of Fibre and Film Materials. Review - I. I. Shamolina 1 3

Fabrication of Enzyme-Containing Cellulose Fibre Materials from Graft Copolymers Containing Sulfo Groups - T. N. Yudanova, I. F. Skokova, and A. D. Virnik 9 10

Properties of Solutions of the Copolymer of Acrylonitrile with Vinylimidazole and Fabrication of a Fibre from It - N. F. Kalyanova, A. N. Barash, and M. P. Zverev 13 13

Characteristics of the Technological Behavior of Water and Its Structure - A. V. Skolunov and A. T. Serkov 17 16

PROPERTIES AND USE OF CHEMICAL FIBRES

Correlation of Natural and Man-Made Polymer Fire Structures - S. P. Papkov 24 21

Thermal Properties of Polyvinyl Alcohol Fibres in the Presence of a Phosphorus-Containing Catalyst - A. V. Tolkachev, T. V. Druzhinina, and L. A. Nazar'ina 26 23

Effect of Sodium Triphosphate on Thermal Decomposition of Hydrated Cellulose Fibres - A. A. Morozova and Yu. V. Brezhneva 31 27

Structural and Adsorption Characteristics of Nonwoven Fibrous Polymeric Filter Materials Fabricated by the Method of Pneumatic Extrusion - V. G. Plevachuk, A. V. Makarevich, E. I. Parkalova, V. A. Gol'dade, and L. S. Pinchuk 36 31

Properties and Use of Nizon and Supernizon Fibres for Prevention and Treatment of Diseases of the Teeth - S. I. Shkurenko, T. S. Idiatulina, T. A. Chistova, and A. T. Petrikas 41 34

MATERIALS SCIENCE

Configuration of a Tricot Loop from Blended Yarn Containing Nitron Fibre - A. V. Truevtsev, S. V. Polyakova, and E. V. Komarova 43 36

TEXTILE AUXILIARY SUBSTANCES

Effect of Textile Auxiliary Substances on the Processability of Fenilon Fibre - L. N. Akimenko, A. A. Kuznetsova, V. P. Kukhar', T. P. Elkina, and B. A. Fomenko 50 40

FIBRE COMPOSITE MATERIALS

Polymer Composite Materials Based on Modified Synthetic Fibres - S. E. Artemenko, T. P. Ustinova, and M. Yambrikh 55 45

Role of Adsorption Processes in Formation of the Structure and Properties of Polymer Composite Materials - S. E. Artemenko, G. P. Ovchinnikova, I. S. Rodzivilova, and N. N. Bukh 60 48

GLASS FIBRES AND MATERIALS MADE FROM THEM

Aqueous Emulsion of Epoxy Resin (EDSV-95) - A Promising Film Former for Oiling Agents - N. M. Demina, S. V. Artamonova, M. I. Prokhorova, I. P. Zabrodina 65 52

"Paraffin Emulsion" Improved Oiling Agent - S. V. Artamonova, N. M. Demina, and M. I. Prokhorova 66 53

	Engl.	Russ.
New Search-Based Textile Oiling Agent for Glass Fibres - S. V. Artamonova and N. M. Demina	68	54
New Type of Domestic Film Former - A High Amylose Starch Product - in Compositions for Treatment of Glass Fibres - S. V. Artamonova and N. M. Demina	71	56
MACHINES AND EQUIPMENT		
A New Design for Control of a Texturing-Drawing Machine - R. L. Rabkin	73	58
PROPOSED FOR DISCUSSION		
Comments on Fibre Terminology - S. P. Papkov	77	61

Volume 29, Number 2, March-April, 1997

	Engl.	Russ.
Rheological Properties of Liquid-Crystalline Solutions of Poly(*p*-phenylene Terephthalamide) and Behavior of the Jet in Spinning Through an Air Space - V. N. Kiya-Oglu, T. A. Rozhdestvenskaya, and L. D. Serova	81	3
Effect of Temperature on Condensation Equilibrium in Synthesis of the Copolyester Vectra in a Melt - A. K. Kuznetsov, L. V. Khanzutina, and L. N. Mizerovskii	87	7
Structural Transformations in the N-Methylmorpholine N-Oxide-Water System - L. K. Kuznetsova, L. K. Golova, G. Ya. Rudinskaya, T. A. Lyubova, N. V. Vasil'eva, and O. E. Borodina	93	11
Oxidation of Polyvinyl Alcohol Fibres in the Presence of Phosphorus-Containing Compounds - A. V. Tolkachev, T. V. Druzhinina, L. A. Nazar'ina, and N. Yu. Mosina	97	14
Effect of the Conditions of Mechanical Treatment on the Reactivity of Cellulose - O. V. Alekseeva, O. V. Rozhkova, and A. N. Prusov	103	19
CONTROL OF PRODUCTION		
Conductometric Titration of Chitosan Sulfate Polyanions in the Presence of Extraneous Electrolytes - K. É. Budovskaya, I. N. Gorbacheva, G. A. Vikhoreva, and L. S. Gal'braikh	106	21
Proceedings of the All-Russian Scientific-Technical Conference "Textile-96" Modern Textile Industry Technologies - S. D. Nikolaev, V. S. Lapshenkova, and L. A. Dmitrieva	110	24
Factors that Affect the Structure of Production Costs - O. N. Zotikova, N. M. Khorpyakova, and E. N. Arnol'dova	112	26
Determination of Economic Safety Zones for Investments in Introduction of New Technology in Production of Nonwovens - T. V. Matveeva and V. E. Chigarov	116	30
Effect of the Nature of Polyethylenepolyamine Solvent in the Heterogeneous Reaction of Polymer-Analog Transformations of Polyvinyl Alcohol-Polyglycidyl Methacrylate Graft Copolymer - L. M. Smolenskaya, T. V. Druzhinina, and N. Yu. Mosina	118	31
Use of New Fluorine-Containing Copolymers for Fabrication of Fibres with Low Wettability - L. S. Sletkina, N. V. Kolokolkina, L. V. Redina, and E. V. Plotnikova	123	35
A Highly Effective Domestic Fire Retardant for Fireproofing Fibrous Textile Materials - N. S. Zubkova	126	38
Sorption-Desorption Isotherms for Fibres with High Hygroscopicity - B. S. Sazhin and G. I. Efremov	130	41
Calculation of Small Water Cooling Towers for Recirculating Water Supply Systems in Industrial Enterprises - L. M. Kochetov and M. P. Tyurin	133	43
FIBRE COMPOSITE MATERIALS		
Fabrication of Porous Reinforced Materials by Separate Application of the Components - V. N. Studentsov	136	45

	Engl.	Russ.
Polymer Composite Materials with Conducting Properties and Low Combustibility Use of Zinc-Containing Sludges - S. E. Artemenko, L. G. Panova, and V. I. Besshaposhnikova	138	46
Bilayer Polymer Composite Materials with Low Combustibility - V. D. Vasil'eva and V. E. Derbisher	141	48
REGENERATION AND INDUSTRIAL ECOLOGY		
Fibre Ion-Exchangers and Membranes Based on Them for Electrochemical Processes of Local Purification of Industrial Media - Z. V. Borisenko, G. M. Mubarakshin, and O. I. Nachinkin	145	52
Study of Sorption of Chromium(VI) Ions by Fibre Anion-Exchangers - S. E. Kurashvili, A. N. Barash, and G. D. Litovchenko	149	55

Volume 29, Number 3, May-June, 1997

CHEMICAL FIBRE CHEMISTRY AND TECHNOLOGY		
Hydroxybutenyl Cellulose Acetates - V. A. Klimov and L. S. Gal'braikh	153	3
Effect of Polyethylene Glycol on the Rheological Properties of Spun Composites for Fabrication of Fibre Biocatalysts - N. R. Kil'deeva, S. A. Galkin, L. S. Gal'braikh, and A. D. Virnik	162	9
Decreasing the Combustibility of Polyolefins using Microencapsulated Fire Retardants - N. S. Zubkova, M. A. Tyuganova, I. S. Reshetnikov, and N. A. Khalturinskii	166	12
Substantiation of the Cluster-Gyroscopic Microstructure of Water with Some of Its Physical and Geometric Parameters - A. V. Skolunov	169	15
PROPERTIES AND USE OF CHEMICAL FIBRES		
Physicochemical Aspects of Moisture Transfer in Articles Made of Natural and Synthetic Fibres - Yu. I. Mitchenko	177	20
Microdeformation Properties of Aromatic Copolyamide Fibres - L. P. Mil'kova, N. S. Pozhalkin, S. I. Banduryan, and V. B. Glazunov	182	24
Residual Component of Deformation of Oriented Synthetic Fibres of Varying Rigidity - E. S. Tsobkallo, E. S. Gromova, and V. G. Tiranov	185	27
Swelling of Man-Made Fibres as an Important Characteristic of Their Properties - S. P. Papkov	189	29
Development of a Heavy-Current Storage Capacitor Based on Carbon Fibre Materials - V. Ya. Varshavskii and E. G. Monastyrskaya	196	35
MATERIALS TECHNOLOGY		
Determination of Shrinkage of Textiles Made of Chemical and Flax Fibres by Different Methods - K. E. Perepelkin, M. N. Belonogova, and N. A. Smirnova	200	39
FIBRE COMPOSITE MATERIALS		
High-Strength Synthetic Fibres for Reinforcement of Thermoplastic Organoplastics for Construction. A Review - A. V. Volokhina	206	44
Polymer Molds - S. E. Artemenko, V. I. Besshaposhnikova, and O. M. Sladkov	218	53

Volume 29, Number 4, July-August, 1997

VISCOSE FIBRES. SCIENTIFIC AND PRODUCTION PROBLEMS		
World Production of Viscose Fibres - I. P. Baksheev and P. A. Butyagin	221	3

	Engl.	Russ.
Production of Viscose Fibres and Yarn in CIS Countries - I. P. Baksheev, P. A. Butyagin, N. T. Butkova, and Yu. A. Malyugin	225	6
Development of Technology for Production of Viscose Fibres and Thread - N. T. Butkova and I. P. Baksheev	230	11
Theoretical and Technological Principles for Fabrication of High-Quality Viscose from Celluloses of Different Origin - V. M. Irklei, Yu. Ya. Kleiner, O. S. Vavrinyuk, and A. Sh. Goikhman	232	13
Effect of the Polydispersity of Celluloses on the Viscosity of Viscose - O. S. Vavrinyuk, V. B. Bakalov, Yu. Ya. Kleiner, and V. M. Irklei	241	20
Practical Implementation of Cellulose Material Production Technologies with Low Consumption of Carbon Disulfide - V. M. Irklei, Yu. Ya. Keliner, O. S. Vavrinyuk, and É. Skoratski	244	23
Comparative Evaluation of Technology and Machine Construction for the Continuous Method of Fabrication of Viscose Fibre - I. P. Baksheev, P. A. Butyagin, and I. I. Matyushev	247	25
New Spinnerets for Fabrication of Viscose Fibres and Yarns - P. A. Butyagin, I. P. Baksheev, and R. I. Zakharova	251	29
Development and Testing of Conical Tantalum Spinnerets - P. A. Butyagin, L. I. Barsova, G. S. Mazhirina, and Yu. I. Rzhevtseva	253	30
Testing the PCW-15 Rewinding Machine - A. M. Popov, I. P. Baksheev, and V. N. Efremov	257	34
INDUSTRIAL ECOLOGY		
Removal of Surfactants from Industrial Sewage with Hybrid Ion-Exchange Composite Materials - S. E. Artemenko, M. M. Kardash, O. E. Taraskina, and A. A. Fedorchenko	261	37
Determination of the Optimum Dose of Activated Sludge in the Aeration Tank-Mixer System in Biological Purification of Wastewaters - I. M. Maslyakov and L. L. Zhuravleva	265	40

Volume 29, Number 5, September-October, 1997

World Production and Use of Polypropylene Fibres and Thread. A Review - V. I. Isaeva, É. M. Aizenshtein, and O. N. Soboleva	269	3
CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES		
Reactions of α-Oxide Groups in Graft Copolymers of Polycaproamide and Polyglycidyl Methacrylate with Thiourea - T. V. Druzhinina, M. M. Tvorogova, and N. Yu. Mosina	282	13
Rheological Properties of Solutions of Chitosan and Carboxymethylchitin - G. A. Vikhoreva and L. S. Gal'braikh	287	17
Thermodynamics of the Reaction of Copolycondensation of 4-Acetoxybenzoic and 6-Acetoxy-2-naphthoic Acids - L. N. Mizerovskii, L. V. Khanzutina, and A. K. Kuznetsov	292	21
Structural Transitions in Liquid Crystalline Solutions of Some Cellulose Derivatives - N. A. Savchenko, O. A. Khanchich, A. K. Dibrova, and V. E. Gul'	298	25
Spinning of Oxide Fibres Made of Natural Cellulose Materials - T. M. Ul'yanova and L. T. Sivakova	302	27
PROPERTIES AND USE OF CHEMICAL FIBRES		
Hollow Fibres for Pressure Membrane Separation of Liquids - G. A. Budnitskii and L. P. Perepechkin	307	31

Engl./Russ.

Testing of New Types of Ion-Exchange Membranes Based on Fibre Materials - S. E. Artemenko, M. M. Kardash, N. P. Berezina, N. A. Kononenko, N. Yu. Klachkova, and S. V. Shirokova 317 40

MATERIALS SCIENCE

Mechanism of Failure of Complex Fibres. Determination of the Critical Filament Length - Z. I. Lavrova, K. E. Perepelkin, and M. N. Ivanov 322 43

FIBRE COMPOSITE MATERIALS

Epoxy Composite Materials with Special Properties - Yu. B. Kulikova, L. G. Panova, and S. E. Artemenko 328 48

Adhesive Strength in the Interaction of Polyamides with Aramid Fibres - T. V. Brantseva, Yu. A. Gorbatkina, T. P. Kravchenko, and M. L. Kerber 332 51

OBITUARY

In Memory of Sergei Prokof'evich Papkov 338 56

ERRATA 340

Volume 29, Number 6, November-December, 1997

Polyacrylonitrile Fibres. Prospects for Development of Production. A Review - B. É. Geller 341 3

CHEMICAL FIBRE CHEMISTRY AND TECHNOLOGY

High-Speed Spinning and Orientational Strengthening of Polyester Fibres. Analysis and Prospects for Development. A Review - V. É. Geller 346 7

Molecular Characteristics of the Copolymer of Terephthalamide, *p*-Phenylenediamine, and 2,7-Diaminodiphenylenesulfone - V. N. Smirnova and M. M. Iovleva 353 14

Fabrication of Modified Fibre Materials Containing Biologically Active Substances - I. F. Skokova, T. N. Yudanova, O. V. Davydova, and L. S. Gal'braikh 356 15

Mechanism of Thermal Degradation and Polyester Fibre in a Furnace Pyrolyzer - B. V. Zvanskii, S. Yu. Krasev, and A. O. Koren' 363 21

Frequency-Temperature Curve of the Complex Dielectric Constant and Refractive Index of Water - A. V. Skolunov 367 25

Dyeing of Transparent Polyamide Fibres - V. I. Isaeva, A. P. Andronova, and O. N. Soboleva 374 30

Supermolecular Structure of Polymer Fibres - S. P. Papkov 376 32

PROPERTIES AND USE OF CHEMICAL FIBRES

Structural and Mechanical Characteristics of Aramid Fibres for Bullet-Proof Vests - V. S. Matveev, G. A. Budnitskii, G. P. Mashinskaya, L. B. Aleksandrova, and N. M. Sklyarov 381 37

Thermal Drawing and Thermofixation of Woven Polyester Screens - E. N. Petrov, I. P. Blinov, Khuot Setkhol, and E. A. Razumovskaya 385 40

MATERIALS SCIENCE

Acoustic Emission in Investigation of the Characteristics of Fracture of Complex Viscose Fibres and Textile Materials Based on Them - K. E. Perepelkin, M. N. Ivanov, and Z. I. Lavrova 388 43

Engl./Russ.

GLASS FIBRES AND MATERIALS BASED ON THEM

Oils Based on Aqueous Dispersions of Colophony Instead of the Traditional "Alcohol-Colophony" Composition - N. M. Demina, T. A. Vysotina, A. I. Zharova, and V. A. Kozlova 392 46

Textile Oil Based on EDSV-95 Emulsion - N. M. Demina, S. V. Artamonova, I. P. Zabrodina, and M. I. Rudich 393 47
